Election/Restrictions

Claims 1-14 and 16 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 18-24, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement as set forth in the Office action mailed on 12 April 2005 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicants are advised that if any claims including all the limitations of an allowable product claim or rejoined process claim are presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Claim Objections

Claims 15 and 17 are still objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. As previously set forth, dependent claims 15

and 17 refer to “Monomer” in independent claims 12 and 16 from which they depend. However, the term “Monomer” is not set forth in claims 12 and 16.

Applicants argue that:

“Claims 12 and 16 define the scope of the cyclic and branched fatty acids and equivalents thereof in the claimed invention, while Claims 15 and 17 are defining Monomer as the source of such fatty acids and equivalents thereof. Thus no antecedent basis is required in Claims 12 and 16 because Monomer is not the sole source of such chemistries being claimed; rather Monomer is one possible source of such chemistries claimed therein. Claims 15 and 17 claim that at least Monomer may be the source of these chemistries. Accordingly, withdrawal of this ground of objection is respectfully requested.”

This is not deemed to be persuasive because there must be literal support for the term “Monomer” in the independent claims.

Allowable Subject Matter

Claims 1-14, 16, 18-24 are allowed over the prior art references of record. Claims 15 and 17 would be allowable if rewritten to overcome the objected to under 37 CFR 1.75(c), set forth in this Office action.

THIS ACTION IS MADE FINAL. Applicants are reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 1764

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
